ceived the same amount of care and labor, but the corn on that which was most highly manured exceeded that on the other portion by nearly one-half. It started earlier, grew more luxuriantly, and more and filled better. There was much less soft corn. Here was a striking example of the importance of manuring, as the addition of one-third more manure gave a crop of about double value.

At the last hoeing, turnip seed was sown, and in the crop of turnips there was about the same difference on the two lots as there had been in the crop of Indian corn.

Let it be more and more firmly fixed and deeply impressed upon the minds of all concerned, that good crops depend, in a great measure, on sowing and using every thing that will fertilize.—Co. Gent.

THE LOSS OF THE SHIP CATHEDRAL.—The loss of this magnificent ship and the melancholy fate of her gallant commander has been one of the chief themes of our newspaper exchanges since its occurrence.

We glean from our exchanges much that is interesting in regard to the disaster, &c., but most of these articles, although very suitable, have been longer and more in detail than we could well publish, and still keep as great a variety in our columns as we wish.

The facts of the case have now become pretty well known and are substantially as follows:—The sea was not that long regular swell so peculiar to the latitude of Cape Horn, but was cross, high, and breaking; setting in from the northwest and southwest. As the counter swells met they towered as high as the ship's topsail yards foamed and broke like a water spout filling the atmosphere with a dense spray similar to a snow storm. The ship was tight and in good order, and no fears were entertained that she would be unable to withstand the storm; but it was noticed that she heeled over more than usual, which induced the chief mate to take in the close-reefed topsail. The cause of her inclination was probably owing to the coals having settled to the leeward and not to the force of the wind as has been supposed. Had Capt. Howard been on deck his practical eye would probably have detected the cause of this heeling, and he would have put her before the wind until he could have ascertained the state of her cargo. Those on deck had no thought of the coals having settled forward hence the ship was still kept on her track to destruction. This settling to the leeward gradually increased until one tremendous sea struck her from the weather quarter, when the cargo below appeared to burst from one side of the ship to the other; and she lay flat upon her broadside, her keel entirely out of water. The back swell of the sea to leeward covered her deck, and the men had to crawl along her side to windward in passing fore and aft. Her mizen and mainmasts were then cut away but this did not effect her position, and she lay like a log in the water entirely at the mercy of the waves. The lee rigging of the mainmast could not be cut, consequently the stump of the mast was driven against the deck which stove it and made an opening through which the coals rushed out and the water in. The entrance forward between decks being open was also flooded. Although lying on her beam ends, if the forward scuttle had been properly secured it is believed that she could have still stood the storm for several hours, for she was very strong and had never "complained" in the worst weather before. She settled gradually but fast, and hardly had the long boat got clear of her side before she sunk, carrying to his untimely end her brave and gallant commander.

We are disposed to think that Capt. Howard could not have been rescued as the mate had hardly time to save his own life. Those who have survived the disaster speak in the highest terms of the captain and crew. In speaking of the captain, the crew say he had been very unwell for several weeks, and although the mate was a good sailor, it could hardly be expected that he would understand the ship as well as her commander.

Captain Howard was justly celebrated as a gentleman of great professional ability and as a devoted husband, a kind parent, and a man of sterling integrity. Much sympathy is extended by all to his suffering and afflicted family.

We have received from Professor A. D. Bache, superintendent of the U. S. Coast Survey in his report for the year 1855. It is a neat volume and contains much interest to all, especially those interested in the improvements which have been made by our coast survey.

There will be a special election for Governor in Missouri, in August next, James S. Rollins, Esq. has been nominated by the opposition to the extreme or "Atchison" Democracy.

It will probably be a close, and severe struggle, and we feel quite sure that it will show an entire change of feeling on Political subjects. It seems too much to expect that Mr. Rollins will be elected, but it is very desirable to cut down the overwhelming majority for Border Ruffianism of last November.

LOCAL NEWS.

THE SUNDAY SCHOOL SERVICES AT ZION CHURCH.—The Sunday School children of Zion Church held their Anniversary Missionary Festival on Sunday evening, and we have rarely witnessed a more interesting scene, as class after class of the little ones were called by the Rector—they advanced and placed upon the front of the altar beautiful and fragrant floral offerings—at the same time handing him a note containing the amount of their contributions through the year to assist in giving light to those in darkness.

The Rev. Mr. Dickinson delivered a brief and appropriate discourse and ended by introducing the Rev. Mr. Brewer of Emman Church, who addressed the scholars for a few minutes, after which the pleasant voices of the children joined in singing that hymn, which brings back to all of us so many memories of childhood, "Lord dismiss us with thy blessing," and after a prayer the congregation separated. We like this spirit of love and kindness toward the children, for before many years are past, they will be our men and matrons, and day by day we grow older in the ways of the world, we see the effect of early education upon the lives and habits of all of us, and realize the strength of Woodworth's poem when he said—

"The child is father of the man."

INTERESTING MISSIONARY SERVICES AT ZION CHURCH.—Since writing our report of these interesting services, we received from a valued correspondent the following, which we give in full:—

On the evening of the third Sunday after Easter missionary exercises were held at Zion Church by the children connected with the parish. During the past year they have been in the habit of monthly contributing to the cause of missions, and on this occasion, the whole amount collected was counted, and found to have reached the sum of \$125. Each class in the Sunday School bears the name of some eminent and good man, and the money was sent from each to the chancel, accompanied with appropriate mottoes, verses of poetry, and in some instances with a beautiful floral offering; the whole being deposited upon a table placed outside the altar rails. Various fanciful designs were employed in the form of the baskets which contained the gifts. Rustic harps, lyres anchors, stars, birds nests and bouquets, were among the appropriate and beautiful devices. The young Ladies Bible Class brought its generous offering in a basket of the loveliest and choicest flowers. This class has adopted for its motto, "Whatever thy hand findeth to do, do it with all thy might." It was a touching sight to see young children approaching the chancel, each bearing his humble offering to aid the great work of evangelizing the world.

"A flower, though offered in the bud, Is no vain sacrifice." The exercises closed with the hymn of Bishop Heber, sung by the children, addressed by several clergymen, and the Apostolic Benediction.

A crowded and interested congregation were present during the services, and the correct deportment of the children throughout the evening, reflected the highest credit both on themselves and on their teachers.

An Independent System of depositing and delivering letters in the various Post Offices of the United States by the application of the square of the Alphabet for which a patent is now pending.

Mr. Editor:—I notice in your daily Saturday last, that you limit the square of the Alphabet to transient letters only. But permit me through the columns of your paper to say that I apply the square of the Alphabet to Let or Hired Boxes as well as to Boxes of the transient or general delivery. The only difference is simply this fact:—I resort to fictitious letters in the Let or Hired boxes to avoid 2 or more names coming in contact. Suppose that Albert Cottrell applies for a box. The Post Master gives him his choice of selection and he chooses a box that is represented by L. M. Albert Cottrell will then be entered on the list of those who hire boxes and at the end of his name will be marked L. M. which will represent the box of deposit in the square of the Alphabet. In calling for his letter he will say L. M. which will be marked on the top of his box instead of the number. I thus supercede the necessity of numbering boxes altogether while the power of the Alphabet by its square and cube in all its variations in the permutation of the quantities will work to perfection the entire wants of mankind in this business. The only thing to be done in such places as the City of New York is simply to make the cases No. 1. No. 2, No. 3 &c., up to the cube of the Alphabet and still further when the inhabitants increase so as to require an extension of the boxes in this system. For the city of New York every case should be crowned with an Arch terminating on the pillars which gives the place of delivery through those pillars. To enter a name in New York for a hired box the person must comply with the system. If he is in No. 1. case he will call as above No. 1. L. M. or No. 2. L. M. or No. 3. L. M. &c., That is the system of the Alphabet applies with equal truth to let the boxes & when a person selects his box he must comply with those two letters which are printed on the top of his

box. They are fictitious to his name but real in the square of the Alphabet by which rule the clerks must deposit by and deliver from. The tendency of this system is to diminish error and without number, or complication, to give great and lasting facilities to the Post Office Department throughout the entire country. ALBERT COTTRELL.

The beautiful little "Chapel of the Holy Cross," Middletown, 3 1-2 miles from Newport, is opened every Sunday morning at half past ten o'clock for Divine service.

Mr. Thomas Spencer, the present organist of Zion Church, has entered into an engagement with the First Baptist Church in this city, to take effect next Sunday. Mr. S. is one of our most promising young musicians.

GENERAL NEWS.

The Organization of the General Assembly.

Mr. Editor:—Goldsmith in one of his exquisite Essays remarks that "no Author should draw upon his imagination for an ideal picture that would not impress the beholder if it was painted on canvass" but your "Star" contributor appears to have forgotten this in his reply to my article upon the "Organization of the General Assembly," he says:

Now I undertake to say, that if at any time when Hazard and Potter were in the zenith of their power in the General Assembly any new member had attempted to set himself up, or to permit others to set him up for the office of Speaker, that he would have received such a rebuke as would have followed him to his grave—Hazard would have pointed his long fore-finger at the man, as he did upon an occasion not dissimilar at Mr. Dorr, and then in slow and measured tones would have uttered a single sentence which would have wilted those premature aspirations into nothingness.—Potter would have arisen and at the height of his imposing manner would have cast a glance so withering upon the youthful aspirant that all that Hazard had left of him, would seem to be at the feet of this great actor imploring for mercy and promising amendment for the future.

You may imagine if you can the effect of this gorgeous scene presented in glowing colors by an Artist—an unfortunate young man from Smithfield, who has attained the juvenility of thirty-three years, and who has served in the subaltern position of Clerk of the House for the limited period of three years, is requested by such youthful Politicians as the Hon. Isaac Saunders, Oliver Johnson, Esq., Daniel Rodman of South Kingston and many others, to direct his infantile aspirations to the elevated, ancient and fossil position of Speaker of the House—this interesting infant of thirty-three years of age, owing to his extreme adolescence not having his political eyes open, kindly complies with their wishes, and now as your contributor says "I undertake to say" opens the grand drama of annihilation, of upsetting diplomatic cradles, and a massacre of ambitious infants, worthy of the glorious and time honored days of King Herod.

Messrs. Hazard and Potter having long since left the stage of action, their places in this affecting Panorama must be occupied by others, and we can imagine some giant of thirty six or forty whose venerable appearance is enhanced as was that of the ancient Uncle Edward, by

"Having no wool on the top of his head The place where the wool ought to grow"

majestically arising and pointing a long or a short fore finger, as the case may be, at the "baby" and then "in slow and measured tones uttering a single sentence which will wilt his premature aspirations into nothingness." We have read of the mysterious "Open Sesame" of Ali Baba and the Forty Thieves. We have imagined the influence of those cabalistic words "Your money of your life!" uttered by a be-whiskered and muscular Highwayman to a timid pedestrian at half past one o'clock of a rainy midnight, by reference to our Dictionary we find quite a number of words of considerable isolated meaning—but imagination fails to picture this one terrible, blasting, withering, baby annihilating sentence—but pause! this is not the worst of it—the fate of the interesting political infant is big with presages of doom, somebody else fills the background and is to arise and "at the height of his imposing manner" (which rhetorical simile is correct, for the friends of the "infant" would consider it the height of imposition) is "to cast a glance so withering upon the youthful aspirant, that all that is left of him, will seem to be at the feet of this great actor imploring for mercy and promising amendment for the future," (we suppose your contributor refers to the cradle, for by this time the "infant" would have been used up.) But allow us to direct your attention from this picture, to another. The Hon. A. C. Greene was elected Speaker of the House in 1821; he had been, at this time, a member of two years standing, and was about thirty-one years of age. Christopher Allen, of South Kingstown, was Speaker in 1836, and was about thirty years old. The Hon. Alfred Bosworth occupied the same position in 1844, at the age of thirty-two. Gov. William Sprague was Speaker in 1833, and was then about thirty-five, and Gen. Varnum Speaker in 1790, we are reliably informed, was but twenty-eight. Charles Allen, of South Kingstown, was a young man when he occupied the chair—between 1835 and 1840; and several of these gentlemen were not only candidates, but Speakers

during the legislative career of Messrs. Potter and Hazard. Mr. Steere, late Democratic Speaker of the House, was thirty-one years of age; and the Hon. Benjamin F. Thurston, present Speaker, is about thirty-three, so that your contributor must perceive that he is incorrect in supposing that "Those were the times when things were sought 'to be done decently and in order'; it was not the first age, when boys sought to push their fathers out of the way before they had got their petticoats off."

Talent and ability should be as well appreciated in the young, as in the old; for whilst we should all venerate age and its ripe experiences, we should at the same time encourage youth in its efforts for reasonable promotion, actuated by a laudable ambition. We would refer your contributor to Mr. Pitts celebrated reply to the distinguished Lord in the English Parliament, who considered his youth a bar to his promotion. Age may improve the Falernian wine, but it was rich and fruity when it gushed from the purple press.

We are conservative, and would have no "boys seek to push their father out of the way before they have got their petticoats off," but we would advance and encourage our young men, so that by and by, when the fathers pass away, they may move in the same sphere of usefulness with the same honor and dignity.

H. T.

A FISHERY.

THE FISHERIES.—The Vineyard Gazette says that Mr. James Osborn took a codfish on Wednesday at the "south side," which weighed about 90 pounds. On dressing it, two full grown ducks (old squaws) were found in its entrails. They were quite fresh, having most of their feathers on.

This should be a warning for mothers, not to let their boys bathe during the "Cod Season," or they may hear by the "Gazette" that a Cod weighing a thousand pounds was caught with two live fat boys (not old Squaws) in its entrails most of their hair and boots on.

P. S. Our devil suggests that the boys would not be predisposed to pulmonary complaint as they would be perminated with Cod Liver Oil.

DANIEL WEBSTER'S EGOTISM.—A good story is related in the Ocean Advertiser, of George W. Canfield, a "right smart chance" of a lawyer who does business somewhere in the wilds of Cattaraugus county. The story runs as follows:—

"I went down to New York several years ago," as he used to say with dignified exultation, "and put up at the Astor House. While I was there, Daniel Webster happened to come to town, and he also put up at the Astor. Seeing my name on the register, he immediately sent up his card, and soon after called at my room. He wanted to form a co-partnership with me in the legal profession, and I took out a shingle right there in the city. We talked the matter over in a general way, with a view to a grand swing into the 'criminal practice,' and I thinking it a middling fair chance to arrange the details of the partnership, the whole thing was suddenly knocked into a cocked hat. I wanted him to do the office business, and take half the proceeds, and I would do all the sporting. Old Dan wanted me to do the office business, and let him do the sporting. We had some words in regard to this matter, and I finally told him that I wouldn't play second fiddle to any such man as Daniel Webster—I'd see him hanged first! He might have made property and become a pretty fair criminal lawyer, if he hadn't been such an egotistical old fellow."

SPECIAL NOTICES.

A CARD TO THE LADIES. DR. DUCROUX'S Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting, regulating, and removing all obstructions from whatever cause.

All medical men know, as well as many others, that a female can enjoy good health, unless she is regular, and when an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably be used successfully as a preventive. Price \$1.00 per box. For sale by HAZARD & CASWELL, 12 Washington Square, and 137 Thames St. They will supply the trade at manufacturer's prices. Ladies, by enclosing \$1.00 to STURGIS & CO., Box 24 Newport Post Office, can have the Pills sent (confidentially) by mail to any part of the city or country. 12-1-ly

PERRY DAVIS' VEGETABLE PAIN KILLER. Still Triumphant—and, after a thorough trial by innumerable living witnesses, it has proved itself to be The Medicine of the Age.

Although there have been many medicinal preparations before the public since the first introduction of Perry Davis' Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world as the best Family Medicine ever introduced.

The genuine Perry Davis' Pain Killer is now put up in panel bottles, with the words PERRY DAVIS' PAIN KILLER blown in the glass; and with two steel engraved labels on each bottle—one an excellent likeness of Perry Davis, the original inventor of the medicine, the other a steel engraved note of hand—none others may be relied upon as genuine. Price of bottles, 12 1-2 cents 25c. &c. &c. respectively.

NO 74 High-street, Providence, R. I. One word in regard to Perry Davis' Pain Killer. I have used it in my family for some two years, and take great pleasure in recommending it as a valuable medicine, that should be kept in every family. I have witnessed wonderful speedy cures by its use—recently, within the last week, I have known a very severe case of rheumatism soon relieved and promising a speedy cure, by this in my estimation, invaluable remedy.

ANOTHER TRIUMPH OF THE DEFENSE SALAMANDER. NEW YORK, Nov. 14, 1856. MR. ROBT. M. PATRICK, 100 Nassau-st. DEAR SIR:—The Defense Salamander, 6,778, purchased from you about eighteen months since, was in my house at Newport, R. I., which, with the furniture, was entirely destroyed by fire on the night of 6th the June last. The Salamander, after being exposed to an intense heat for many hours, was recovered on the 10th of June. Not having the necessary tools at hand to open it, the same has stood just as when recovered, until shipped to your address, Nov. 1st. I have opened at your store this morning, I was greatly surprised, as were also others present, to find the contents, consisting of valuable silver plate, &c., in as perfect order as when placed therein. It is with pleasure I add my testimony to the merits of the Salamander of your manufacture. Yours, Respectfully, DANIEL PATRICK.

"BALM OF A THOUSAND FLOWERS." A COUNTERFEIT.—A person pretending to have been a partner with W. F. Petridge in the above article is making out a spurious preparation on the public. All are cautioned unless the name of PETRIDGE & CO. is written on the side, and W. F. PETRIDGE & CO. printed on the front of the label. The genuine article is for sale by all respectable Druggists, who frown down counterfeiters and impostors. WHITE TEETH, PERFUMED BREATH, AND BEAUTIFUL COMPLEXION can be acquired by using the "Balm of a Thousand Flowers." That lady or gentleman would remain under the curse of a disagreeable breath, when by using the Balm of a Thousand Flowers would render it sweet.

COURT OF PROBATE.

Newport, April 20, 1857. UPON the petition of James G. Topham, Executor of the last will and testament of Gardner Braman, late of Newport, dec'd, representing that the personal estate of said dec'd in the hands of the Executor, is insufficient by the sum of one hundred and twenty-six dollars and twenty-two cents, to pay the just debts, which said Gardner Braman owed at the time of his death, as appeared by the registry of this court, and praying for authority and license, in his capacity as executor, to sell at public auction, all the right, title, and interest which said Braman had, at the time of his death, in and to a certain lot of land and buildings thereon, situated on the East side of Thames-st., in said Newport, being the homestead estate of said Braman, or so much thereof, as will be sufficient to raise said sum with incidental expenses. The same is read, received and referred for consideration to a Court of Probate, to be holden at the City Clerk's Office, Newport, on Monday, the 25th of May, inst., at 10 o'clock, A. M. Notice is hereby given that all persons interested may appear at said time and place and be heard thereon. B. B. HOWLAND, Prob. Clerk.

SHERIFF'S NOTICE. STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS. NEWPORT, AS. Clerk's office, Court of Common Pleas, To the Sheriffs of our several counties, or their deputies. GREGORIO. WILKINS, GEORGE J. CORLISS, and EDWIN NIGHTINGALE, both of the City and County of Providence and State of Rhode Island, &c., co-partners under the firm and style of Corliss & Nightingale, said Court that Lowell Doyle, of said Providence, formerly doing business at Newport, in said County of Providence, under the name and style of the Rhode Island Manufacturing Company, is justly indebted to the said Corliss & Nightingale, in the sum of five thousand three hundred and forty-eight dollars and forty-five cents, according to the account therewith filed, for materials used and work done in the construction and erection of a steam Engine, Shafting, Gearing &c. in and about the Mill belonging to the said Doyle, at the request of the said Doyle, without written contract, which said mill is located in said Newport and on the following described lands, viz: a certain parcel of land late belonging to the Coddington Manufacturing Company, bounded and described as follows: beginning at the North East corner, formed by the intersection of a street or lane running Easterly from the salt water, to Thames street, six hundred feet, to the place where the North line of the land belonging to Joseph M. Hammett, intersects Thames street; thence Westerly, bounded Southerly on land of said Hammett, three hundred and fifty feet on Thames street; and on land of Edward King, about twenty feet to the salt water; thence Northerly bounded Westerly on said salt water, six hundred feet to the street or lane running Easterly North of the mill; thence Easterly bounded Northerly on said street or lane three hundred and seventy feet to the salt water; beginning on Thames street, being the same land, buildings, &c., however bounded and described, conveyed to the said Doyle by deed from said Coddington Manufacturing Company, dated April 15, 1856, for which said account or demand said petitioners claim a lien, under and by virtue of the act entitled "An Act seeming to mechanics payment for repairs and improvements by them made on Real Estate," in said land with the mill and other buildings and improvements thereon, and upon all the estate and interest which the said Lowell Doyle had, on the twenty-fourth day of June, A. D. 1856, in the same.

And that within six months after the date of commencing said work and of commencing the delivery of said materials, said petitioners lodged in the office of the clerk of said city of Newport, the account or demand for which said lien is claimed by them, with notice to what land, buildings and improvements, and to whose estate in the same the said account or demand referred, and praying that the said lien may be enforced against the estate and interest of the said Doyle, doing business as the said Rhode Island Manufacturing Company, as aforesaid therein, on said twenty-fourth day of June, A. D. 1856, and that the same may be sold to satisfy the aforesaid account or demand, and all other accounts and demands for which the same is pledged and liable by said account mentioned act; and also representing that the Rhode Island Bleach and Cambric Works a corporation created by the General Assembly of said State of Rhode Island, and located in said city of Providence, in said Providence have respectively conveyed certain portions of said property from said Doyle on record, and that the said William V. Bishop, the Coddington Manufacturing Company, a corporation created by the General Assembly of said State of Rhode Island and located in said Newport; and Haynes Lord, John D. Warren, Joshua D. Evans, Joel D. Stebbins, Henry C. Whitaker, John H. Andrews, James D. Davis, and George W. Bowen, co-partners, doing business in New York, in the county and State of New York, under the name and style of Lord, Warren, Evans & Co., (said last named persons companies said said Lord, Warren, Evans & Co., all residing in said New York,) have respectively mortgages on said property on record in said Clerk's Office in said Newport. We command you, therefore, to cite the said Lowell Doyle, and the said Rhode Island Bleach and Cambric Works, the said William V. Bishop, the said Coddington Manufacturing Company, and the said Haynes Lord, John D. Warren, Joshua D. Evans, Joel D. Stebbins, Henry C. Whitaker, John H. Andrews, James D. Davis, and George W. Bowen, composing said firm of Lord, Warren, Evans & Co., that they severally be and appear (if they shall see fit) before the next term of our said Court of Common Pleas, to be holden at said Newport, on the third Monday of May next, and then and there show cause, if any they have, why said lien should not be allowed and enforced by said Court for the amount claimed. Witness, Samuel Ames, Esq., at Newport, this twenty-fifth day of April, A. D. 1857. [Signed] JOHN W. DAVIS, Clerk. A true copy of the above citation.

Attest, Wm. D. LAKE, Sheriff.

STATE ANSWER of Massachusetts, says: "I have subjected to CHEMICAL ANALYSIS, the Cod Liver Oil prepared by HAZARD & CASWELL, of Newport, R. I. I was very much surprised to find it to contain unaltered the iodine compounds essential to efficacy of action, and in comparison with the finest specimens I have seen of foreign or domestic origin, it takes the highest place. The importance of having a reliable source, from which this valuable remedy in a state of purity can be obtained, leads me to recommend with confidence, this excellent article." As a remedy for consumption, bronchitis, female debility, asthma, gout, rheumatism, sciatitis, catarrhs, neuralgia, infantile wasting, emaciation, &c.—it has no equal. It is not to be used freely as an element of nutrition in any case where there is decay, however slight, of the constitution. It will restore feeble children to robust health, and is the most valuable nutritive agent known. We guarantee every bottle bearing our signature to be perfectly pure and reliable. Address orders for the trade to the manufacturers.

MISCELLANEOUS.

The Greatest Discovery of the Age. **PROFESSOR WOOD** offers for sale the perfect **HAIR RESTORATIVE.** It is a short time restore the Hair, which has become gray prematurely, to its original color—bring it out where it is gone, and arrest when it is falling off—cleanse the head of dandruff and itching—remove all cutaneous eruptions, and render the scalp perfectly healthy, by restoring the secretory organs to their original vigor and strength, and thus supply nutriment and coloring matter to the hair. It does not dye the hair, but, in short a perfect hair restorative and tonic. To the young, who so much admire the beautiful locks and ringlet, he feels that he will be pardoned if he offers the advice suggested by long study and extensive observation. It is to disperse all ephemerical and stimulating oils for the hair, and keep always upon the scalp a bottle of the Restorative for occasional use and we can safely predict, that henceforth silver locks will be upon bald heads. Let the hair eye be ever so piercing—and the hair be as thick as the hair of a lion—if the natural fluids be withheld from the hair, and in consequence becomes first dead and harsh, then gray, or falls off nature will be robbed of more than half its charms; as it is a sovereign remedy for those who are gray as well as those who are bald, all must see the propriety of making only such application to the hair and scalp as is calculated to preserve both in a healthy state. From the editor of the Real Estate Advertiser No. 2 School-st. Boston, March 20, 1855.

Prof. Wood—Dear Sir—Having become prematurely gray, I was induced some 6 weeks since, to make a trial of your Hair Restorative. I have used less than two bottles, but the gray hairs have disappeared; and although my hair has not fully attained its original color, yet the change is gradually going on, and I have great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which before was harsh and dry, and it has ceased to come out as formerly. Respectfully yours, **D. C. M. RUPP.** Milford, Worcester Co., Mass., Nov. 13th, 1855.

Prof. O. J. Wood—Dear Sir—I take pleasure in hearing voluntary testimony to the merits of your Hair Restorative. As far back as 1855, my hair commenced falling off until the top of my scalp became bald and smooth as glass, and it has continued to fall off for a great many years, notwithstanding I have used many celebrated preparations for its restoration. Seeing your advertisement I was induced to give your article a trial, and to my utter astonishment I found after a few applications that my hair became firm and assured by your very glossy and beautiful appearance; and at the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches in length, and growing very fast. Yours, truly, **HENRY GOODRICH.** Carlyle, Ill. June 27, 1856.

I have used Prof. O. J. Wood's Hair Restorative, and as I thought permanently gray, but by the use of his Restorative, it has resumed its original color, and I have no doubt permanently so. **SIDNEY BIBBES.** Ex-Senator, United States. Suckling Gooseberries.

The mode adopted by the Lancashire prize gooseberry growers, is a burlesque on the mania for big things. They first prepare a very rich soil, and add to its influence by the use of liquid manure and slaking; and then thin the fruit to only three or four on each bush. Watering is also applied over the plant, the young wood is pinched in so as to throw all the strength into the fruit, and in addition to all this, a saucer of water is placed beside each gooseberry, to impart additional moisture and render the fruit more plump and succulent, which is termed "suckling." We should like to be informed the actual cost of a quart of such gooseberries, and would prefer giving a prize for the largest crop on a single bush or on a square rod, for a single berry of this sort, of hen's egg size.—*Co. AYER'S CHERRY PECTORAL.

FOR THE RAPID CURE OF Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.
Dr. J. C. Ayer: I do not hesitate to say the best remedy I have ever found for Cough, Hoarseness, and all the pulmonary troubles, is your Cherry Pectoral. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EDWIN KNIGHT, M.D.

A. B. MONTLEY, Esq., of Utica, N.Y., writes: "I have used your Cherry Pectoral and in my family ever since you invented it, and believe it the best medicine for its purpose ever put forth. It has cured my wife and my two children of a cold and cough, and I have paid twenty-five dollars for a bottle that would not do without it, or like any other remedy."

Croup, Whooping Cough, Influenza.
Salem, Mass., Feb. 1, 1856.
Dr. J. C. Ayer: I have used your Cherry Pectoral in the best remedy I possess for the cure of Whooping Cough, Croup, and the chest diseases of children. We of your family in the South appreciate your skill, and commend your medicine to our people.

AMOS LEE, Esq., of Utica, N.Y., writes, Jan. 18, 1856: "I had a tedious influenza, which confined me in doors six weeks; took many medicines without relief; finally cured your Cherry Pectoral by the advice of our clergyman. The first dose relieved me of all my chest and lung troubles; less than one half the bottle made me completely well. Your medicine is the choicest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisis, and Bronchitis.
Salem, Mass., Feb. 4, 1856.
Dr. J. C. Ayer: I have used your Cherry Pectoral in the best remedy I possess for the cure of Asthma or Phthisis, and Bronchitis. It has relieved several from alarming symptoms of consumption, and is now curing a man who had labored under it for several years. HENRY L. PARKER, Merchant.

A. A. RAMPSEY, M.D., of Andover, Mass., writes, Jan. 1, 1856: "During my practice of many years I have found nothing equal to your Cherry Pectoral for giving tone and relief to consumptive patients, or curing coughs and colds."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.
Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the Cherry Pectoral affords relief and comfort.

Ayer's House, New York City, March 5, 1856.
Dr. J. C. Ayer: I feel a duty and a pleasure to inform you what your Cherry Pectoral has done for my wife. She had been months laboring under the dangerous symptoms of Consumption, from which no aid was procured, until she used your Cherry Pectoral, until Dr. Strong of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for the recovery and cure of this disease. It is not yet so well as she used to be, but it is free from her cough and she herself well.

Yours with gratitude and regard,
ORLANDO SHREVEY, of SHELBURNE.

Consumption, do not despair till you have tried Ayer's Cherry Pectoral. It is made by one of the best medical chemists in the world, and its effects are so powerful, that the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedently upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their purgative properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purgative the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the everyday complaints of every body, but they remove the most dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the best and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of fraud. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of your remedies, while others have sent me the assurance of their conviction that my Preparations contribute immovably to the relief of my afflicted, suffering fellow-creatures.

Our Agents, Messrs. Allen, are pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a full Stomach, Pain, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Malaria, Loss of Appetite, all Ulcers, Cancers, Catarrhs, and all other diseases which require a powerful Medicine, Scrophulous or King's Evil. They are, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Dropsy, Partial Blindness, Neuritis and Nervous Irritability, Discharge of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for Ayer's Pills, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The risk is not the best deal there is for them, and they should have it.

LOTTERIES.

LOTTERIES.—The Lotteries of Samuel Swan & Co., are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The managers would respectfully call attention to the fact that all persons desiring a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co., are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme on ticket in every ten must draw a prize. Tickets are \$10; halves, \$5; quarters, \$2.50. No tickets sent unless the money accompanies the order. The drawings upon the principle of one number on each ticket, and no one number can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from \$10 to \$50,000; every prize being drawn and result of drawing forwarded to all purchasers.

A list of the numbers that are drawn from the wheel, with the amount that each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans Delta, Mobile Register, Charleston Standard, Nassau Gazette, Atlanta Intelligencer, and New York Weekly Day Book. Write your address plainly, and direct to S. SWAN & Co., ATLANTA GEORGIA. Prizes paid in full—no percentage deducted from prizes as in other lotteries. All communications strictly confidential.

LOTTERIES.—The well known Maryland Consolidated Lotteries, of which I. FRANK & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day in the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from \$1.00 to \$20.00. No tickets however, sent unless the money accompanies the order. The drawings upon the principle of one number on each ticket, and no one number can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from \$10 to \$50,000; every prize being drawn and result of drawing forwarded to all purchasers immediately after it is over. Address T. (Late Agent of U. S. Patent Office, Washington, under the Act of 1857.)
No. 76 STATE, OPPOSITE KIDLY ST., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American and Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through its inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by any other Agency in the country. Researches made into American and Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of procuring Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents
From the present Commissioner.

August 12th, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

GREAT RUSH AT WILLIAMS' ROOMS.
Owing to the rush at my Rooms, and all not having had a chance to get their pictures taken, I will continue to take Ambrotypes on nicer glass and a size larger than any taken in the States for the small sum of 75 cents.

I would advise the public to improve the time now while the lamp holds out to burn, the old and young may get a good return for 75 cents by calling at WILLIAMS' ROOMS.

Ambrotypes, Melanotypes, Fillmore's, Buchanan's, and Fremont's. All of you party men and women can have a picture of your candidates by calling at the above establishment.
